Suitable printing condition: 15 – 30°, humidity 30 – 60%.
To optimize printing quality the printer need to be set for highest quality. Lamination is recommended.
Storage in original box cool and dry – shelflife 1 year.
Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. We recommend to perform own tests in order to verify the desired results.
Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

Range of application

- Ultra-white PP-material, curl-free, blackout, waterresistant, intensive colors.
